

# G.T.Enterprises

Open Space for Open Source

## A Profile

At the dawn of the Open Source software movement, G.T.Enterprises (well known as GT) has been established with a prime focus to promote Free & Open Source Software ( FOSS). Founded by the Smt. Geetha Taranath and U.M. Taranath during early 90's, it has been GT's endeavor to make the latest and updated Emerging Technologies available to Indian IT Industry. The Company is a live example of Women Entrepreneurship in our Country. Smt. Geetha Taranath who is a Graduate is instrumental in transforming GT to a Multi Crore Company within a short time. This has been possible with her dedication and hard work.

During the journey of 16 long successful years GT has laid the foundations brick by brick and grown to be one of the largest Technology providers in the Asian sub-continent. GT has collaborated with software houses and vendors across 5 continents to bring in latest innovative technologies. GT is proud to say that it has been instrumental in introducing many new technologies in India. It is also a well-known fact that FOSS and Virtualization concept which has been sown in India by GT has grown in to a big tree today. In fact GT is a pioneer in FOSS and Virtualization concept in India. GT has a wide range of value added products in the areas of IDEs, Compilers , Debuggers, Development Tools, Applications, Virtualization, Mobile Technology, Embedded & Real-Time, Security, RDBMS and many more....

Since inception, GT has been focused on Technologies. This uniqueness has helped GT to service the Indian IT Industry be it Defense R&D, Educational Institutes, Public , Private Sector Undertakings, Banking, Insurance, Oil & Gas, Software Houses, Aerospace, Medical & Transport Industries alike. This contribution of GT has been recognized and acknowledged by the corporate sector in many ways and more so by many Government organizations.

GT's strength has been its people and the convergence of their minds, their expertise, commitment, flexibility and hard work are the true strengths for success and are also the reason for a promising outlook to the future. They are highly skilled in terms of product knowledge and pre – post sales support.

GT has grown strong and steady with branches in Bangalore and Mysore with company owned Head Office in Bangalore and Technical cum Training Center in Bangalore and Mysore. In addition owns two state of the Art Virtualization Training Kits each being Rack mounted Servers with Storage hosted in co-location facility in USA and in Bangalore Support Center.

GT has a regional presence in every major city in the country through partners. With a vast sales network, to extended reach to the end customer and channel. GT also re-exports software products and services to APAC, African Continent and Middle East.
